ORDERING AND SHIPPING

NOTE: Possession of this pricing guide does not necessarily constitute an offer to sell by Kairak.

This Pricing Guide supersedes all other price lists. Although reasonable care has been taken to ensure the accuracy of information in the Pricing Guide, Kairak cannot be held liable for any errors or omissions. Prices shown in this Price Guide are for standard Kairak models with standard electrical characteristics as described in sales and technical literature. All prices and specifications are subject to change without notice.

PAYMENT TERMS

All shipments are F.O.B. point of manufacture. The terms of sale are subject to credit approval. There terms may be modified at any time prior to shipment. All shipments will be made on a pro forma invoice or C.O.D. basis unless otherwise approved. Labor, miscellaneous parts, refrigerant, taxes and freight are not covered under this warranty.

SHIPPING CARRIER

Kairak reserves the right to ship merchandise via any responsible carrier available at the time equipment is ready for shipment. When carrier or shipping routing is designated by dealer, Kairak will attempt to comply. Kairak cannot be held responsible for carrier rate differences; this is beyond our control. Rate differences are entirely between carrier and purchaser.

ORDERS AND DRAWINGS

To assure prompt and correct fabrication, Kairak must have all necessary information on the original order. Do not overlook finishes, accessories, and other options needed for a finished installation.

- 1) Are all model numbers correct?
- 2) Is a special refrigerant required?
- 3) Are drain locations specified?
- 4) Are all specifications of equipment by others included?
- 5) Are the electrical specifications correct?
- 6) Are special tops and backs needed for focal point operation?
- 7) Is your shipping address complete, including zip code?
- 8) Is special shipping required?
- 9) Have you indicated the date required?

RETURNED GOODS

Permission must first be obtained from Kairak home office before returning any merchandise. Returned merchandise is subject to a minimum of 25% handling charge. All returned goods, cartons, or crates must display our return authorization number. Any returned good shipment lacking the return authorization number will be refused, with all additional freight costs to be borne by the returning party. Special equipment built to customer's specification may not be returned nor cancelled once production has begun.

CONCEALED DAMAGES

All of our crating conforms to general motor carrier specifications. If the container shows rough handling or visible damage, in order to minimize liability, a full inspection is necessary upon arrival. A notation must be placed on the freight bill and signed by the truck driver. Appearance of damage will necessitate removing the crate in the presence of the driver. Claims for damages must be filed at once by purchaser with the freight carrier.

SANITATION CODES

If you are placing equipment into an area which has certain sanitation requirements other than NSF standards, Kairak must be advised of these specifications in detail before fabrication of the equipment, in order that we may quote additional costs, if any. Failure to notify Kairak before fabrication releases us from any obligation to modify our standards without additional charges.

TAXES

Prices shown do not include federal, state or other existing taxes. Applicable taxes will be charged and added to the invoice unless an exemption certificate and tax identification number is received.

STORAGE CHARGES

Our shipping commitment is determined in accordance with delivery requirements and our best ability to fabricate. If, after the equipment has been fabricated, the customer requests delay in shipment and warehousing is required, the following schedule will apply:

- 1) Any equipment held for shipment at the purchaser's request for a period of 30 days beyond the delivery date specified shall become immediately payable.
- 2) If equipment is held beyond 60 days after the delivery date specified, storage charges will be added.

SERVICE PARTS

All orders for service parts have a minimum charge. The policy may be modified by Kairak without notice. Prices shown for parts in the price list are for use when ordering an accessory with an original unit. Prices may vary when ordered separately from the Parts Department.

WARRANTY

Warranty must be purchased at the time of sale only.

STANDARD WARRANTY TERMS

Kairak's warranty coverage warrants that Kairak-branded products are free of defects in materials and factory workmanship. The following applies to all Kairak Model and Serial numbers.

Kairak's warranty is extended only to the original purchaser and shall not apply to any failures resulting from damage in transit, improper installation, alteration, normal wear, misuse, abuse, improper voltage, accident or negligence. The warranty excludes; T-stat adjustments, time clock adjustments, gaskets, cutting boards, filters, clogged drains, ice build-up with no mechanical failures, and the loss of contamination of food due to mechanical or electrical failure. Warranty does not apply outside the United States.

In order to be covered under this warranty, prior authorization to perform necessary and appropriate service must be obtained from Kairak. Failure to contact Kairak could void warranty. Kairak will pay straight time labor to repair or replace a defective component when failure occurs and only when such service is performed by a Kairak Authorized Service Agent. Additional expense including but not limited to; overtime premium, travel time, maintenance, adjustments and cleaning are the responsibility of the owner. Kairak will bear normal labor charges incurred in the repair or replacement of a warranted piece of equipment within 50 miles (80 kilometers) of an authorized service agency. Time and travel charges in excess of 50 miles (80 kilometers) will be the responsibility of the person or firm requesting the service.

In order to be covered under this warranty, prior authorization to perform the necessary and appropriate service must be obtained from the factory. Model and Serial number must be provided at the time of service request. Kairak does not assume responsibility for any expenses, including labor, parts or travel expenses incurred without such prior authorization. Kairak shall not be liable, whether in contract or in tort or under any other legal theory for loss of use, revenue or profit, substitute use or performance, incidental, indirect or special and/or consequential damages, loss of refrigerant or for any other loss or cost of similar type. Such related charges will be back charged to the responsible party. The decision of the Kairak Service and Warranty, as to whether a defect is within the terms of this warranty shall be final.

Failure to object a provision contained in a customer's purchase order or other communication shall not be deemed as a waiver of terms or conditions of their warranty, nor shall it be considered acceptance of such provisions. This warranty supersedes and is in lieu of all other warranties, expressed or implied and of other obligations of liabilities, on the part of Kairak.

In case of freight damage, do not refuse shipment, but call agent's attention to its condition, making careful note of the details on freight bill before freight charges are paid. File claim for damages with freight agent immediately.

BLU FIXTURES manufactured by Kairak hold a 3-year parts and labor warranty. Kairak holds a 5-year compressor warranty, with a one-time compressor only replacement after the first year. Kairak will warranty the labor to replace the compressor for the first three years.

30 days from the ship date. After the first three years, labor, tax, shipping and miscellaneous parts will not be included. Please contact our warranty department for compressor replacement procedures during the warranty period.

REFRIGERANT FIXTURES manufactured by Kairak hold a 3-year parts and labor warranty; excluding KR Models. Kairak holds a 5-year compressor warranty, with a one-time compressor only replacement after the first year. Kairak will warranty the labor to replace the compressor for the first year.

30 days from the ship date. After the first year, labor, tax, shipping and miscellaneous parts will not be included. Please contact our warranty department for compressor replacement procedures during the warranty period.

TO REQUEST AUTHORIZED SERVICE, CALL THE KAIRAK SERVICE AND WARRANTY HOTLINE: (800) 833-1106.

After-hour requests must be urgent in nature and documented with Kairak's after-hours service line prior to service being performed. Kairak is responsible for straight time only, unless otherwise approved by the warranty department.
